

Post-storm checklist

Safety first. The camera comes out only when the space is safe. This is not a claim guide.

General information, not professional, insurance, or legal advice. Always follow official evacuation orders from your county.

Do not do these

- ☐ Do not go out until local officials say the threat has passed
- ☐ Do not walk, swim, or drive through flood water
- ☐ Do not touch wet electrical equipment or downed lines
- ☐ Do not enter a damaged building until authorities say it is safe
- ☐ Do not run a generator indoors, in the garage, or within 20 feet of the house
- ☐ Do not have children do cleanup

If you are documenting damage

- ☐ Photograph damage before you move things, only if it is safe to be there
- ☐ Write an itemized list: item, cost, purchase date, serial number if you have it
- ☐ Keep receipts, including cash purchases
- ☐ Ready.gov says to contact your insurance company for assistance
- ☐ DFS says: don't sign anything - call 1-877-693-5236 first
- ☐ Policy questions go to your insurer, DFS, or flair.gov. This list does not answer them
